RECOMMENDATIONS

TIME MANAGEMENT:

For effective time management in meetings, especially when half of the feedback indicates a need for improvement, focus on these key strategies:

1. Preparation: Share a clear agenda with allocated times for each item before the meeting.
2. Prioritization: Rank agenda items by importance to ensure critical topics are addressed first.
3. Timekeeping: Assign a timekeeper to ensure discussions stay within allocated time slots.
4. Efficiency in Participation: Encourage concise contributions and consider if everyone's presence is necessary for each topic.

Enhance Engagement:

Increase interactive elements in meetings, such as Q&A sessions, polls, or breakout discussions, to boost engagement and ensure all voices are heard.

THANK YOU!
